

## Products & solutions

**Welcome to BT Wholesale**

We specialise in helping communications providers like you deliver outstanding services to your customers. Companies working with us gain a lot, and can grow their business.

- Reliability**  
Our core network is the backbone of the UK's connectivity infrastructure. We always on and always secure.
- One-stop shop**  
Create attractive product offerings that cater to your customers. Get everything in one place using our digital hub.
- Expertise**  
Our team has a combined 40,000 years of experience. Whatever your product's scale or requirements, our know-how can help it succeed.

## Why BT?

Rely on us for customer connectivity. As demand grows, so will your business.

**Account manager**  
We'll be there to get your back. We'll be there to get your back. We'll be there to get your back.

**Where tech meets sustainability**  
We're taking our responsibilities seriously. As the UK's largest sustainability leader with technology investments reaching a £10 million target for customers' CO2 emissions by 2030.

## Voice services and connectivity for every business

Cost-effective VoIP plans for small businesses, to unified communications and fully featured digital contact centres for larger organisations. And the supporting access technology to keep people talking.
